

The Tararua Tailwagger

Term 3 2024

Message from the Club President:

Once again, this last term of training has whizzed by. Thanks to all our instructors who volunteered their time each week to take classes and help our students deepen the bond with their dogs and teach them some new skills.

Unfortunately, we had some wet nights towards the end of this term (and some very cold ones) but well done to these came along regardless of the weather.

This last term the committee has been working hard on pulling together our annual championship obedience show weekend (where we also hold a single day Rally ribbon trial). Thank you to all club members who helped make the show weekend a success. We had good entries and have had great feedback from competitors about the show.

The Purina Pro Plan National Dog Show was held at Manfield in Feilding from the 3rd to 7th of September. Well done to all those who got out there and competed in the three disciplines of Obedience, Rally O and Breed classes at this event. Congratulations to all those who placed.

Planning is now underway for the club's October SSANZ Buried Hide scent work trials, thank you to the small group of club members working to pull this event together. We look forward to seeing many of you back on 1st October at Ashhurst for Term 4's training.

Have a go!

This game is called Snack Track Down. It is similar to last terms game, Muffin tin puzzle, but a little more complex.

For this game you can use any kind of empty containers, any size from shoeboxes to yogurt cups (rinsed clean, of course). This is a great use for containers that are not able to be recycled. If your dog is on the larger size, you'll use larger containers, and vice versa.

Set this game up when your dog isn't around. Place a few containers on the ground and place a treat underneath a few. Then bring in your dog and watch them search for the treat.

When you first play this game, you might want to poke holes in the containers to make the treats easier to smell. As your dog becomes a pro at this game, you can make it harder by adding more containers, spreading them out farther, varying the container size, and only one treat under one of the containers.

Good luck  and happy hunting!
