

The Tararua Tailwagger

Term 3 2025

Message from the Club President:

Who can believe Term 3 is over and done already and we're leaping towards Spring? This term we weren't quite as lucky with the weather and had a couple of wet nights.

This issue, I'd like to start with a huge **CONGRATULATIONS** to Tanya Emms and her dog Drive who recently gained their Obedience Champion status. Well done team. Tanya and Drive are Tararua's fifth obedience champion combination. Tanya was made up Tararua's second obedience champion, Legend.

Back in late July, five of the club's instructors attended a Domestic Dog Training Conference arranged by Dogs NZ. The conference ran over two very full days and was a great opportunity for those of us who attended to catch up with instructor's from around the country and also to brush up on our knowledge. Of particular interest for me was a reminder on just how much quality/uninterrupted sleep your dog needs. Did you know puppies under 6 months need between 16 and 20 hours a day? Adolescents (between 6 months and 3 years) need 14 - 16 hours a day, adult dogs (over 3 years) need 12 - 14 hours a day, and senior dogs may need 14 - 18 hours per day.

In late August the club held its 75th Championship Obedience Show at Manfield. This was the first time we have run a triple show (and an indoor show at Manfield). A HUGE thank you to all who helped with this show. It was great to have so many of the committee and advanced class students come along and help out. We really appreciated the help from you all.

I'm looking forward to the longer Spring days however don't forget to stay safe and be seen when out walking with your dog/s.

Again, this issue I'd like to thank our instructors who came out each week to help you with your bond with your dog and showed you how to work on some new skills.

We must thank our sponsors VitaPet for their generous donation of dog treats and foods that were including in our class packs and handed out on grading night.

Keep up the good work and we look forward to seeing many of you back again for Term 4. Don't forget we will be at Ashhurst for Term 4 and Term 1.

Cheers, Anthea

President – Anthea Finlayson

Vice President – Meredith Pitcher

Secretary – Sue Cooper

Treasurer – Tanya Emms

Senior Instructor – Cushla Fitzwater

Club Captain – Jess Lane

Webmaster and Enrolment Officer – Liza Tarasova

Publicity Officer and Trophy Steward – Monique Connelly

Committee Members – Nerolie Morrison, Jade Scarrett, Robyn Hanks, Tania Habrle

Term Dates for 2025

Term 1 (at Ashhurst)
21 Jan – 18 March

Term 2 (at Longburn)
29 April – 17 June

Term 3 (at Longburn)
15 July – 9 Sept

Term 4 (at Ashhurst)
7 Oct – 2 Dec

Location of training

In Ashhurst we train at the Manawatu Canine Centre grounds, accessed through the carpark on Cambridge Avenue

Our Longburn facility is in Ngaire Street (first turn on the right after the railway overbridge)

Class times

Classes times will be given out on the first night of term (from 6 to 7pm).
Classes last for 30-45 minutes.

Speyside Royal Salute (AI)

*Congratulations to everyone for
their achievements!*

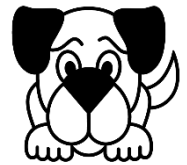

75th Anniversary Show

On the 24th and 25th of August, we held our 75th show. This is an amazing milestone for the club to reach. Here is a bit of history that was researched for the show:

The first meeting regarding forming an all-breed club was held on the September 9th, 1979. There had been murmurings about separating from Manawatu Kennel Association to an all-breed club for dog training. There was an unsuccessful special general meeting held on December 12th, 1979, in an attempt to get the club formed. The inaugural AGM was held March 27th, 1980. Correspondence from Rosemary Cleator was sent afterwards, confirming TADTC was recognised as a club. Marie Stewart helped set up club and came up with the name Tararua Allbreeds Dog Training Club.

Our first club logo (left) made shortly after the club was officially established. It adorned club clothing and was put on the obedience championship show catalogues.

The second club logo (right) was drawn by life member Tanya Emms. This new logo was created in 1997 and is still in use today.

Through the many years, the club has grown and evolved, members coming and going. The best way to describe the club was said by life member Tanya Emms, "TADTC continues to have a positive culture supporting and encouraging members to achieve goals no matter what they may be."

Left Picture: The amazing cake made by Village Cakes, Bakes, and Catering

Right Picture: Life members, left to right: Owen Morrison, Nerolie Morrison, Sue Cooper, Tanya Emms, Joyce Duggan, Jean McNabb, Warren Duggan, Anthea Finlyason, and Cushla Fitzwater.

I want to express the clubs thanks to all the Club Members who helped at the show and in the lead up to the show. We could not do this without you.

We also cannot go without thanking our amazing sponsor, Superior Pet Food. They have been providing us with sponsorship product for a few years now and are incredibly generous.

Member's Story

Meredith's golden retriever Islay recently had a litter of puppies and has also gone through a medical battle with a grass seed. This story is a reminder for everyone to be vigilant with regards to grass seeds and especially barley grass.

On 4th March, Islay was confirmed to have puppies on board! At that visit to the vet, a small swelling on her right flank was noted. Just eight days later, she was lame and swelling now extended into her leg, foot and mammary glands. An urgent ultrasound was done and a foreign body was suspected. Over the coming weeks as Islay got larger, the abscess was drained regularly with painkillers and antibiotics given, being mindful of the eleven growing pups. On 7th April, Islay gave birth to not 11 but 13 beautiful pups all by herself but the swelling continued to necessitate drainage and more antibiotics and painkillers until the pups could be weaned and an operation performed.

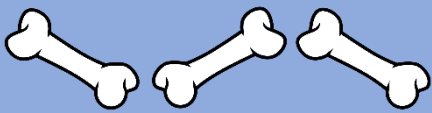

Unfortunately, Islay became unwell and with the swelling now quite enlarged, a local vet inserted a needle which produced pus-filled fluid. It was now an abscess. Day surgery was scheduled with the pups being now 3.5 weeks old. Unfortunately, no foreign body was able to be located so the pocket which contained the abscess was thoroughly cleaned out and stitched up. When the pups were just 6 weeks old, Islay became very unwell and I took over the pups from Islay. She was then referred to Massey for an urgent assessment, CT scan and probable surgery.

The vet was suspicious that Islay had ingested or inhaled a barley grass seed at some point and that it had travelled through her body to get near to the right flank and then gone inwards. He told us that he knew of a case where a barley grass seed had reached the animal's spine and it died before surgery could be performed. So, Islay stayed at Massey.

After looking at the CT scan and seeing a foreign body which appeared to be in a muscle near the spine, the vet elected to go in through Islay's abdomen. He found nothing so 24 staples were inserted and he went in again through the previous incision on the right flank and found a barley grass seed finally which was inserted into a muscle. Another 8 or so staples and she was able to be woken up! Islay couldn't go back to her pups so she went home to her other part owners Pat house. I, along with some great helpers, finished raising the pups. Islay is now back to normal (albeit bald as a badger) but she is back running and swimming and rough housing with her favourite buddy Vino.

Treat Recipe

Plain Dog Biscuits

Ingredients:

1 Egg
300gm Wholemeal flour
150ml Stock

Process:

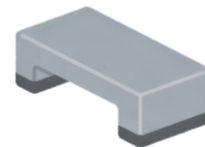

1. Combine all ingredients.
2. Knead for 3 minutes
3. Roll out to 1cm thick and cut into shapes or roll into balls
4. Bake at 170°C for 20 mins or until golden brown.
5. Store in the fridge (or can be frozen)

Have a go!

Paws On

This game is engaging physically and mentally. It's a stimulating exercise you can do with your dog. This game helps with attention, loose lead walking, and building your relationship. You will need some food/treats and an object safe to put paws on e.g. book, yoga block, step or block of wood.

- Step 1.** Place the object on the ground and any step towards it reward (yes and treat). Place/throw food away from the object.
(Some dogs may put a paw on it straight away, reward for this and continue)
- Step 2.** Wait for your dog to choose to return back to the item and reward.
- Step 3.** Continue to reward as the dog gets closer to the object or until they put a paw on it. Then reward by throwing a treat away.
- Step 4.** Begin to lengthen the time between rewards (start with 2-5 secs), encouraging them to stay with feet on object (adding) duration.

Once they become confident, you can take this game to other places. It can help your dog build confidence in unfamiliar places. It can also be a good rainy-day game.

Have fun and keep sessions under 3 minutes.
